

## Call For Papers: Energy, Institutions and Society

Blair Fix

# Thermodynamics 2.0

# 2020

I've been asked to create panels for the upcoming [International Conference on Thermodynamics 2.0](#). The conference aims to bring natural and social sciences closer. It will take place at Worcester Polytechnic Institute, Massachusetts, USA from June 22-24, 2020.

I'm calling the panel(s) *Energy, Institutions and Society*. I'm looking for research that connects energy to the structure of human society. Both theoretical and empirical contributions are welcome.

If you are interested, please send a title and abstract to me at [blairfix@gmail.com](mailto:blairfix@gmail.com). The deadline is February 1, 2020.
